THE "ROARING" TWENTIES REVIVED

'GATSBY' INSPIRED THEME A HUGE HIT

RECORD NUMBERS GATHER IN RENO
FOR INTUIT HOLIDAY PARTY

RENO, Dec. 12 2015—Snow blanketing the roadways didn't deter holiday revelers as they made their way to the Peppermill Resort Spa Casino in Reno, NV for Intuit's annual gala event. With over 650 guests attending the celebration, Intuit Reno announced that this year's celebration reached record numbers.

Events leading up to the occasion included a visit to the offices by two Flappers who roamed the hallways reminding team members to RSVP before the deadline. Attendees were also invited to do load the 2015 Intuit Reno Holiday Party app, expressly designed to keep attendees informed with up to the minute information and provide guests a platform to upload photos and share comments throughout the evening.

Leadership greeted guests as

they arrived in lavish costume to enjoy a night of decadent food, creative cocktails and toe tapping jazz. The women were dazzling in their hand beaded gowns, strands of pearls and feather boas. Not to be outdone, the men sported their best three piece suits, two tone oxfords and stylish fedoras.

Partygoers entered the event via a creatively decorated alley depicting a street scene of the "Roaring 20's". The décor included brick buildings, warehouse facades, crates, barrels and a 1920's vehicle provided by the National Automobile Museum. After passing through a guarded door, guests made their way towards the Speak Easy where booze flowed and sumptuous appetizers were displayed on make shift whiskey barrel tables.

Drinks in hand, guests entered the ballroom where they were

greeted by the music of Cami and the Cosmopolitans, a 7 piece orchestra specializing in sounds reminiscent of America's golden age. The room was beautifully decorated to match the era with Doric columns, shimmering fabric and soft lighting. A 40 foot dance floor was flanked by 60 dining tables set with black and gold linens and adorned with lavish centerpieces to enhance the elegance of the room. Dinner began at 7pm with an extravagant menu that included beef wellington, pan smoked

salmon, roasted pork loin and spiced butternut squash risotto. An amazing array of bite size deserts were cleverly displayed on poker tables as a tribute to the event space and the era.

Performances by BLV Entertainment amused guests throughout the dinner hour with several surprise routines that delighted the audience. After rounds of applause and a brief intermission, the lights dimmed and the crowd began dancing to their favorite songs provided by Intuit's own, Erik Riekenberg

and his entertainment company, Epik Entertainment.

Throughout the evening guests mingled and shared stories of parties past while envisioning possibilities for next year's theme party. The evening closed at 11pm where some partygoers continued the celebration at Edge, the Peppermill's signature lounge inspired nightspot.

Guests are invited to provide their feedback using the survey included in the Holiday Party app.

PROHIBITION RULES UNITED STATES AT TWELVE TONIGHT

No More Whiskey, No
Brandy, No Beer, No Wine
and Not Even Any Home
Brew

WASH. DC, Jan. 16 1920—Constitutional prohibition, becomes effective at midnight tonight.

From 12:01 a.m., the "manufacture, sale or transportation of intoxicating liquors within the United States and all territory subject to the jurisdiction thereof for beverage purposes is prohibited by the eighteenth amendment to the Constitution. Congress has defined an intoxicating liquor as any beverage containing one-half of one percent, or more, of alcohol.

Enforcement of constitutional prohibition lies with the bureau of internal revenue. Commissioner Roper established an entirely separate division in the bureau for the enforcement of prohibition. Mr. Roper has

made plain, however, that enforcement of prohibition depends largely on local sentiment and has appealed to citizens of the United States to give their co-operation to upholding the law of the country.

The amendment was adopted by congress on December 18, 1917, with a clause that it would be inoperative unless ratified within seven years. It required only thirteen months. The vote in the house was 281 to 128 and in the senate 65 to 20.

Submission of the amendment to the states came at a time when many legislatures were assembling. Mississippi quickly put its approval on the amendment and it was followed in order by Virginia, Kentucky, South Carolina, North Dakota, Maryland, Montana, Texas, Delaware, South Dakota, Massachusetts, Arizona, Georgia, Louisiana, Florida, Michigan, Ohio, "Oklahoma, Maine, Tennessee, Illinois, Colorado, West Virginia, Idaho, California, Indiana, Arkansas, North Carolina, Washington, Alabama, Kansas, Oregon, Utah, Iowa, New Hampshire and Nebraska, making the

PROHIBITION ENFORCED

BIG MOONSHINE FACTORY RAIDED BY STATE POLICE

STILL AND LIQUOR AT SUTRO
TUNNEL SEIZED BY POLICE

Italian is Caught in Act of
Making "Jackass Brandy"

RENO, Jan. 16 1920—J. G. Zedoli was arrested last night by R. B. Henrichs, superintendent of the state police and his men, caught in the act of manufacturing "jackass brandy" with a still concealed below the Sutro tunnel dump twelve miles from Virginia City.

The plant was located by Superintendent Henrichs on information furnished them that liquor was being manufactured and sold in the old town of Sutro.

Arrested With Still Operating
"We found Zedoli actually operating the still," said Henrichs

today, "I took three quarts of liquor, which was all there was there. Apparently Zedoli had just begun to operate the still.

I had one bottle analyzed by S.C. Dinsmore and it contained sixty per cent alcohol, which would make it about 120 proof.

Federal Prosecution

"I have turned Zedoli over to the federal authorities and notified William Woodburn, United States attorney of what happened. I understand the United States marshal will take charge of the case today."

required thirty-six states, three-fourths of the union, for the amendment to become effective.

Acting Secretary of State Frank L. Polk proclaimed the amendment as part of the constitution under the date of January 29, 1919, but it goes into effect one year from the date of ratification by the thirty-sixth state. As that took place on January 15, 1919, the amendment is operative, according to the bureau of internal revenue, at midnight of tonight

DAYTON MAN FINED \$300

DAYTON, Jan. 16 1920—A. Pannelli, arrested Wednesday on a charge of selling whiskey over the bar in his saloon at Dayton entered a plea of guilty before Justice of the Peace Byron Gates yesterday and was fined \$300.

PROHIBITION AMENDMENT RULES IN BRIEF

Constitutional prohibition, effective at midnight tonight makes the following provisions:

Declares unlawful the manufacture or sale of any beverage containing one-half of one percent or more of alcohol

Declares places where liquor is sold to be common nuisances, abatable as such.

Search and seizure powers given prohibition enforcement officers, except for the search of private dwellings unless used for the sale of intoxicants or in part as places of business.

Liquor seized to be destroyed, vehicles and other property to

be sold and proceeds paid into United States Treasury.

Advertising of liquor by any method prohibited.

Permits manufacture at home use of non-intoxicating ciders and fruit juices.

Permits manufacture of alcoholic liquors for sacramental and medicinal uses, under restrictions.

Permits manufacture of alcohol for industrial and scientific uses.

Permits possession of liquor in home if purchased before prohibition became effective.

Permits possession of liquor in

home if purchased before prohibition became effective.

Permits possession of liquor in home if purchased before prohibition became effective.

Physicians prohibited from prescribing liquor for patient unless in good faith they believe it will afford relief from ailment. Not more than one pint can be prescribed in any month for one person.

Various penalties for violation fixed, the most severe being \$2,000 fine and two years' imprisonment.

CALIFORNIA'S MARRIAGE LAW INCREASES NEVADA WEDDINGS

U. S. Department of Commerce Issues Figures Today in Washington Showing Divorces in This State Have Very Nearly Doubled

RENO, May 14, 1928—California's new marriage law, requiring that three days notice be given before the issuance of a license, has resulted in many couples crossing the border into Nevada to have the nuptial knots tied according to statistics made public today by the department of commerce.

The report shows that there were 2308 marriages performed in Nevada last year as compared with 1021 in 1926 representing an increase of 1170, or 85.3 percent.

"This increase is largely due to a recent change in the marriage law of California requiring three days notice to be given before the issuance of a marriage license," the report states.

The report further shows that there were 1953 divorces in Nevada last year as compared with 1021 in 1926 and in this connection attention is directed to modification of the resi-

during the previous twelve months.

"The population of Nevada at the time of the census of 1920," the report continues, "was 77407, and since this figure represented a decrease as compared with 1910, no estimates have been made for subsequent years. On the basis of the 1920 census figure for population, the number of marriages in Nevada per one thousand of the population was 31 in 1927 as against 15.9 in 1926; the number of divorces per one thousand of the population was 25.23 in 1927 as against 13.19 in 1926; and the number of marriages annulled per one thousand of the population was 0.491 in 1927 as compared with 0.258 in 1926

"The number of marriages performed and the number of divorces and annulments granted were reported by the county clerk of each county. The figures for 1927 are preliminary and subject to correction.

Divorce Record Broken Today by District Judge

RENO, Sept. 3, 1929—Thirty-eight divorce decrees were granted today in Judge Moran's department of the district court, the cases heard including those of Judge Bartlett's department. The latter failed to arrive in Reno this morning because he could not get accommodations on the morning airplane from San Francisco and as a result Judge Moran took over the calendar of his colleague.

Decrees were granted as rapidly as the cases could be heard and in between Judge Moran heard two or three small probate matters. Had it been known earlier in the morning

that he would handle all of the cases for today, Judge Moran could have handled an additional ten before ten o'clock this morning.

Records Broken For Weddings in Washoe County

RENO, Sept. 3, 1929—Only two less than six hundred marriage licenses were issued in Reno in August, a gain of one hundred over those of July of this year, which was the previous high figure for weddings in Reno.

Striving for a record month of five hundred licenses, the county clerk's forces went above that figure at noon Saturday when 550 was reached. Then, with stray couples coming in Saturday afternoon, Sunday and Monday, all being credited to August, the grand total for the month reached 598.

A drop in the figures is now looked for as the roads are getting worse daily and the weather cooler, but September of last year was the best month on record until July of this year when that record was broken.

GREAT STORM BLOCKS TRAFFIC THROUGH MOUNTAINS

TRAINS CANCELLED OR STALLED AS TRACK CLEANING EQUIPMENT IS RUSHED TO SNOW BARRIERS

All Highways Out of Reno Impassable and Even Some City Streets Are Blocked

RENO, Feb. 10, 1922—Driven by a thirty-mile wind from the South, the storm early today assumed proportions of a blizzard, seriously interfering with vehicular traffic of all kinds and blocking railroad and street railway transportation.

Snow flying in great sheets, blinded the pedestrians and made walking a difficult and hazardous undertaking. Taxicabs were at a premium and early workers literally "floundered" in from the outskirts to take up the day's toil. Trolley service between Reno and Sparks was suspended and all highways were blocked. Some of

ELKO NOTES

Charles Bach, the Edgemont mining operator, is an Elko visitor. He reports that the Edgemont group will have its best year yet.

Mary M. Wood and her daughter of Reno are Elko visitors. Mr. and Mrs. Ernie Bihimaier will leave tomorrow morning on a motor tour of Yellowstone Park. Mr. and Mrs. R L Labroskie left for the same location yesterday.

Frank Case left for Berkeley where he will attend the University of California.

Mrs. Louis Wintermantel and son have returned to Elko following a two months visit to relatives in Oakland

Rail Traffic Stalled Until Tracks Were Cleared at Andover

Some of the streets in the residence sections were closed to traffic.

Latest reports from mountain stations said four locomotives were coupled to passenger train No. 6, east bound on the Southern Pacific in an effort to bring the heavy train into Reno. It was stalled at Boca. Traffic on the Western Pacific was completely tied up. The V. & T. operated its morning trains but no attempt was made to maintain the motor schedule.

Summit Snow Above Normal

But the inconvenience of it all is lost sight of in reports from the high regions where reservoirs were filling rapidly from the deluge and the snow cover was piling up until it passed the normal depth for this season of the year.

Measurements taken on the summit early this afternoon showed the snow cover to be 124 inches on the level and the storm at that hour was progressing with great energy.

Reno's Total Nears Six Inches

Considering the heavy rain which fell incessantly Wednesday night the total precipitation for the storm at noon today was 2.14 inches at Reno bringing the season's total up to 5.84 inches.

Records show that the present storm is the heaviest since December, 1919, when steady precipitation for practically five days totaled 3.36 inches. The total precipitation for 1919 was 9.64 inches here.

Rail Traffic Tied Up

With Western Pacific trains tied up behind great drifts, the Southern Pacific Company was having great difficulty in operating its east bound trains, although it was reported that west bound running time was being maintained practically on schedule. Passenger train No. 6, due in Reno from the Coast at 8:00 A. M. became stalled at Andover early today but snow plows soon had the track clear.

Gov. Seugham Throws The Switch to Light the Exposition Arch

ARCH DEDICATION

Ceremony Will Be Feature Of Homecoming Day

RENO, Oct. 23, 1926—The ceremony for the dedication of the exposition arch, designed and built by J. L. Stuart of San Francisco, was a prominent part of Home Coming Day today. An estimated twelve to fifteen hundred people came to Reno for the combined festivities.

LONG JOURNEY

The arch departed San Francisco on a huge truck last Saturday morning and was exhibited in Sacramento and other points on its way over the Sierra.

Once the arch arrived in Reno yesterday Mr. Stuart took personal charge of its erection at Virginia Street and Commercial Row.

AFTERNOON PARADE

The parade this afternoon to Mackay Field started at 1:30 o'clock going direct up Virginia

Street where the uniformed bodies passed in review before exposition officials and other notable guests and gave a short drill. Between halves another drill was given and the band rendered many selections.

GRAND PROCESSION

The evening parade started at 7:15 o'clock with S. E. Ross and J. L. Stuart acting as marshals of the procession. A motorcycle police platoon led the parade which formed at Powning Park. The order of the line-up was the chief of police and marshals in an automobile, the governor and other state officials, United States senators, the mayor and councilmen, state senators and then exposition officials.

LUNSFORD PRESENTS ARCH

W. S. Lunsford, chairman of the exposition board of governor presided over the dedication of the exposition arch. The arch was formally dedicated when Gov. Serugham threw a switch to illuminate it. Mr. Lunsford then presented the arch to the city of Reno and Mayor Roberts accepted the arch on behalf of the city.

ATTENDANCE AT COLLEGE THIS YEAR IS A RECORD - 418

RENO, Sept. 17 1920—Men outnumber women students at the University of Nevada two to one this year except in the junior class where the proportion is three to one.

The total registration of the college is 418, the largest in its history. Of that number 265 are men and 153 women.

The university announces the following registration figures:

Class	Men	Women
Graduate	1	7
Senior	23	14
Junior	23	14
Sophomores	37	34
Freshmen	133	65
Specials	38	11
Unclassified	11	7
Total	265	153

Taken by colleges, Arts and Science is far in the lead, with 222 students enrolled, or fifty-three per cent of the total. Mines comes next with forty-three, or ten percent of the total, with the remaining thirty-seven per cent scattered among the remaining colleges. Registration by colleges:

College	Men	Women
Arts and Science...	111	111
Mines	43	--
Electrical	39	--
Aggies	27	11
Mechanical	34	--
Normal	--	31
Civil	11	--
Total.....	265	153

PLANE BRINGS FIRST AIR POST LETTERS

Stanhope S. Boggs Delivers First Transcontinental Aerial Mail

Arrival of Big Plane Marks Beginning of Regular Trips Across Continent

RENO Sept. 9, 1928—Bringing letters from North Carolina, West Virginia, New York and New England states the first transcontinental aerial mail carrier landed in Reno at 12:50 o'clock today. The ship brought seven pounds fourteen ounces of letters which were delivered this afternoon in Reno. A sack of mail addressed to San Francisco was picked up by the ship here.

The ship was piloted by Stanhope S. Boggs of Oakland who has been in the aerial mail service for several months and who has been assigned to a regular run between Reno and San Francisco. The territory between Reno and the Coast is familiar to him and it was for that reason he he drew the assignment to the initial run.

Large Reception At Field

The arrival of the mail ship was welcomed by about 100 persons who had gathered at the field. Mayor Stewart, J. C. Durham, Postmaster Fred White, W. S. Lunsford, President Knight of the Chamber of Commerce and others welcomed the aviator. A battery of cameras was stationed at the field to snap the ship as it landed and Pilot Boggs posed several times

to aid the photographers. Trouble in Landing

The big DeHaviland Four came through the canyon east of Reno about twelve o'clock and passed over the field a few minutes later. Pilot Boggs soared around the field several times before he landed. He explained that it had been difficult to determine the direction of the wind and that had caused him to ascend several times when within a few feet of the ground.

He suggested that a flag be placed on the postal building at the field which would serve to guide the flyers who, he said, will not be able to see the small flag now flying from the pole at the lower end of the field.

The mail sack was taken from the ship by Pilot Boggs and turned over to Postmaster White. It was rushed to the post office and distribution of the packages begun at once.

Less than fifteen minutes after the plane had landed at the aviation field special delivery letters were being sent from the post office by the delivery boys.

Halts for Lunch

The ship remained at the field more than an hour while the pilot was brought to the city for luncheon with representative business men. He departed about 1:30 for the last lap of the flight.

WOLF PACK LOSES HOMECOMING GAME

RENO, Oct. 23, 1926—Coach "Slip" Madigan of St. Mary's, nervously paced the side-line of Mackay Field Saturday as his team hurled its strength against the Nevada Wolf Pack before a record-breaking crowd of spectators.

The colorful crowd was composed of university students, visitors to the Home Coming celebration, residents of Reno and the St. Mary's routing section.

Mackay bleachers were packed, temporary bleachers did not suffice and hundreds of automobiles lined the rim of the bowl. The total attendance was estimated at close to ten thousand.

For more than half of the game it seemed St. Mary's had met its equal. Then the Wolves' usually dependable fullback fumbled a low pass in front of Nevada's goal line. The Saints scored on the next play. In the final period

they crossed Nevada's line again after completing a long forward pass.

The rest of the game was fought largely in the center of the field. Neither team came within striking distance of the other's goal. The game ended with St. Mary's in possession of the ball in Nevada territory. Final score: Nevada 0; St. Mary's 13. The Saints were the undefeated champions of the Far Western conference.

SLOGAN PLACED ON RENO STREET ARCH

G.A. Burns' Winning Slogan Shining Bright For All To See

RENO, July 17, 1929—Reno's official slogan, "The Biggest Little City in the World," at last shines forth for visitors to read.

The slogan is written in Neon lights on the exposition arch at Virginia street and Commercial row which was constructed to advertise the 1927 highways exposition.

The company which erected the

exposition arch installed the new lights as a courtesy to Reno.

The problem of selecting a slogan for the arch was not solved until after two contests were held. The second contest held this year ended in the judges favoring the "biggest little city" slogan, already unofficially in use.

SUFFRAGE AMENDMENT PART OF CONSTITUTION NOW

RIGHT TO VOTE CONFERRED ON 17,000,000 WOMEN FOR NATIONAL ELECTION IN NOVEMBER

WASHINGTON, D.C., Aug. 26, 1920—The proclamation announcing that the suffrage amendment to the constitution had been ratified was signed this morning at eight o'clock by Secretary of State Colby at his home.

The announcement disappointed a group of suffrage workers from the National Woman's Party who had gathered at the state department hoping to be present when Mr. Colby signed the proclamation. **Struggle Completed**

"We are confident that the signature of Secretary Colby completes the suffrage struggle in this country," Miss Alice Paul, chairman of the party said. "In spite of every obstacle that our opponents could put in our way, women have won the right to an equal voice in the affairs of this government." **Greatly Disappointed**

The women gave evidence of keen disappointment in not having had an opportunity to make something of a ceremony out of the signing of the proclamation and went back to headquarters to begin planning an independent celebration.

Secretary's Statement

Secretary Colby made the following statement:

"The certified record on the suffrage amendment was received by mail this morning. Immediately on its receipt the record was brought to my house. This was done in compliance with my directions and in accordance with the numerous requests for prompt action. I thereupon signed the certificate at eight o'clock in the presence of Mr. E. K. Nielson, the solicitor of the state department and Mr. Charles L. Cooke, also of the state department. The seal of the United States has been dully affixed to the certificate and the suffrage amendment is now the nineteenth amendment of the constitution."

BILL PROPOSES TRAFFIC CHANGE

RENO, Oct. 23, 1926—An ordinance designating the full length of Virginia street and Fourth street as boulevards, was introduced at a special meeting of the city council last night. The ordinance will come before the council Monday night for final passage. It will mean that motorists coming into these thoroughfares from side streets will not have to stop before entering them.

With the passage of the ordinance it is expected that the "no left turn" provision of the city traffic ordinance, which applies to the Second and Virginia street crossing, will be eliminated.

TOM SIMS SAYS

Some take too much trouble in making pleasure and others take too much pleasure in making trouble.

"It was decided not to accompany the simple ministerial duty on my part with any ceremony or setting. This secondary aspect of the subject has regretfully been the source of considerable contention as to who shall participate in it and who shall not. In as much as I am not interested in the aftermath of any of the frictions or collisions which may have been developed in the long struggle for the ratification of the amendment I contented myself with the performance in the simplest manner of the duties devolved upon me under the law."

Congratulates the Women

"I congratulate the women of the country upon the successful culmination of their efforts which have been sustained in the fact that many discouragements and which have now conducted them to the achievement of that great object."

"The day marks the day of the opening of a great and new era in the political life of the nation. I confidently believe that every salutary forward and upward

force in our public life will receive fresh vigor and reinforcement from the enfranchisement of the women of the country.

"To the leaders of this great movement I tender my sincere congratulations. To everyone, from the president who uttered the call to duty, whenever the cause seemed to falter, to the humblest worker in this great reform, the praise not only of this generation but of posterity, will be freely given."

How Proclamation Reads

The proclamation recounts the process by which the new article 19 of the constitution was presented and ratified, naming the ratifying states and continues:

"Now, therefore, be it known that I, Brainbridge Colby, secretary of state of the United States, by virtue and in pursuance of section 206 of the revised statutes of the United States, do hereby certify that the amendment aforesaid, has become valid to all intents and purposes as a part of the constitution of the United States."

Ann Martin and Sara Bard Field pose behind the "Great Demand" banner.

RENO WOMEN READY TO CELEBRATE VICTORY

RENO, Aug. 26, 1920—Every bell and whistle in Reno, in the state of Nevada, and in the United States will ring simultaneously at noon on Saturday in nationwide celebration of the ratification of the national suffrage amendment, according to instructions received this morning by Mrs. Frank G. Patrick, president of the Nevada League of Women Voters from Miss Carrie Chapman Catt, president of the National American Woman Suffrage Association.

Similar instructions, according to an Associated Press dispatch, were received today by suffrage organizations in every state in the union.

Nevada Was 28th State

"Nevada was the twenty-eighth state to ratify," said Mrs. Sadie Hurst, who introduced the resolution of ratification at the special

session of the Nevada legislature in February, "and I am very proud to have been a member of one of the legislatures that made suffrage possible for women."

Nevada was one of the states to ratify the amendment early this year when it became apparent that the vote of Western states would be needed in order to make suffrage universal before the November elections. That places this state in an enviable place, according to the suffrage workers and they intend to make the celebration, one of the "great big affairs of Nevada."

19th Amendment

"The right of citizens of the United States to vote shall not be denied or abridged by the United States or by any State on account of sex."

resolution he cited that the legislatures of California, Illinois, Tennessee, North Dakota and Utah have asked congress to enact legislation providing for the adoption of the metric system.

Another resolution introduced by Representative Britten would authorize the department of commerce to establish commodity quantity units for general use in merchandising after 1935. The units proposed in his resolution would stabilize the yard to the meter, the quart to the liter and the pound to five hundred grams decimally divided.

METRIC SYSTEM TO BE STUDIED

WASHINGTON, D.C., Oct. 29, 1929—An investigation by the secretary of commerce to determine the possible advantages or disadvantages of the metric system for general use in the United States is proposed in a resolution by Representative Britten (REPILL).

He said the metric system is accepted generally for International trade and its use is required by law by a large majority of the nations of the world. In his reso-

BLACK TUESDAY

STOCKS COLLAPSE IN 16,410,030-SHARE DAY

Crowds Gathered On Wall Street As Market Went Into Historic Decline

BIG TRADERS HARDEST HIT

Bankers Believe Liquidation Now Has Run Its Course and Advise Purchases

NEW YORK, Oct. 29, 1929 — Stock prices virtually collapsed yesterday, swept downward with gigantic losses in the most disastrous trading day in the stock market's history. Billions of dollars in open market values were wiped out as prices crumbled under the pressure of liquidation of securities which had to be sold at any price.

From every point of view, in the extent of losses sustained, in total turnover, in the number of speculators wiped out, the day was the most disastrous in Wall Street's history. Hysteria swept the country and stocks went overboard for just what they would bring at forced sale.

It is estimated that 880 issues, on the New York Stock Exchange, lost between \$8,000,000,000 and \$9,000,000,000 yesterday.

Banking support, which would have been impressive and successful under ordinary circumstances, was swept violently aside, as block after block of stock, tremendous in proportions, deluged the market. Bid prices placed by bankers, industrial leaders and brokers trying to halt the decline were crashed through violently, their orders were filled, and quotations plunged downward in a day of disorganization, confusion and financial impotence.

Third Day of Collapse

The market has now passed through three days of collapse, and so violent has it been that most authorities believe that the end is not far away. It started last Thursday, when 12,800,000 shares were dealt in on the Exchange, and holders of stocks commenced to learn just what a decline in the market means. The storm broke anew on Monday, with prices slaughtered in every direction, to be followed by yesterday's tremendous trading of 16,410,030 shares.

Huge Offerings at Opening

The opening bell on the Stock Exchange released such a flood of selling as has never before been witnessed in this country. The failure of the market to rally consistently on the previous day, the tremendous shrinkage of open market values and the wave of hysteria which appeared to sweep the country brought an avalanche of stock to the market to be sold at whatever price it would bring.

From the very first quotation until thirty minutes after 10 o'clock it was evident that the day's market would be an unprecedented one. In that first thirty-minutes of trading stocks were poured out in 5,000, 10,000, 20,000 and 50,000 share blocks at tremendous sacrifices as compared with the previous closing. The declines ranged from a point or so to as much as 29 1/2 points, and the reports of opening prices brought selling into the market in confused volume that has never before been equaled.

In this first half hour of trading on the Stock Exchange a total of 3,250,800 shares were dealt in. The volume of the first twenty-six blocks of stock dealt in at the opening totaled more than 630,000 shares.

There was simply no nearby demand for even the country's leading industrial and railroad shares, and many millions of dollars in values were lost in the first quotations tapped out. All considerations other than to get rid of the stock at any price were brushed aside.

COUNTESS WEDDED TO ACTOR IN RENO

RENO, Sept. 9, 1920—Countess Ida von Clausen of New York City was married here today to Capt Raymond H. Mayberry of, Los Angeles. Rev. Brewster Adams of the Baptist church performed the ceremony.

At the clerk's office prior to the ceremony the bride-to-be let it be

known that she was an "honest to goodness" countess and both she and her prospective husband begged that no notoriety be given their marriage.

Mayberry says he is an actor. The record shows he divorced in June, 1920, at New Haven, Conn., on grounds of desertion. His bride appears on the record a widow. Mayberry is 35 years old and von Clausen 39.
